## PROFILE

---

A detail-oriented Front-end Developer with a passion for crafting seamless user experiences and implementing cutting-edge web technologies. Dedicated to optimizing performance, accessibility, and SEO while staying abreast of emerging trends in web development. Experienced in collaborating within team environments and adept at interfacing with clients and external partners professionally.

## PROFESSIONAL EXPERIENCE

---

### React Developer

06/2024 – present

*Swifdrop*

Remote

- Worked on a food delivery app, specifically focusing on the development and management of the admin dashboard.
- Developing and maintaining a responsive, user-friendly admin dashboard and ensuring efficient user management and order tracking.
- Regularly updating tasks and progress on Nifty, ensuring alignment with monthly deliverables.

### Frontend Developer Intern

02/2024 – present

*Convorate*

Remote

- Developed interactive features such as real-time messaging, file sharing, and user authentication to enhance the platform's functionality and user engagement.
- Integrated third-party APIs and libraries to enable features such as notifications, emoji reactions, and channel customization.
- Worked closely with backend developers to integrate frontend components with backend services, ensuring data consistency and system reliability.
- Demonstrated strong problem-solving skills and attention to detail in addressing technical challenges and optimizing performance.

### Front-end Developer Intern

06/2023 – 09/2023

*Softamplify Technologies*

- Assisted in the deployment of applications and managed DNS and cloud services for multiple domains.
- Collaborated in developing user Interfaces for a website that meets client demands.
- Conducted research and used responsive design to create an easy-to-use interface.

## SKILLS

---

### Hard Skills

- HTML
- CSS (including TailwindCSS, Bootstrap)
- JavaScript
- ReactJS
- Git & GitHub
- NextJS
- Typescript

### Soft skills

- Problem-solving
- Teamwork
- Strong communication expertise
- Interfacing with clients and external partners

## PROJECTS

---

### fashionTech

*Reeact, Tailwind*

- Leveraged modern frontend frameworks and libraries such as ReactJS to enhance interactivity and performance.
- Integrated secure payment gateways and user authentication systems to ensure a safe and reliable shopping experience.

- Designed intuitive user interfaces for product browsing, selection, and checkout processes, prioritizing ease of navigation and conversion.

### **MOVIELAND**

*ReactJS, TailwindCSS*

A dynamic movie website leveraging a Movie Database (DB) and API integration.

- Implemented a robust search functionality using ReactJS, enabling users to easily explore the movie database by titles, genres, or keywords.
- Introduced a bookmarking system, allowing users to save favorite movies for quick access, enhancing personalization and user convenience.

### **REST Countries API**

*ReactJS, TailwindCSS*

This REST Countries API provides users with an immersive exploration of global data.

- It allows users to access a vast database of countries, presenting all relevant information on the homepage for easy access.
- I implemented a user-friendly search feature, enabling users to quickly find specific countries by name or region.
- The application adapts to different screen sizes, ensuring an optimal layout regardless of the user's device.

## **EDUCATION**

---

**Pure and Applied Chemistry**

*University of Lagos*

09/2016 – 12/2021
